

Get the COVID Jab and help keep our mob safe

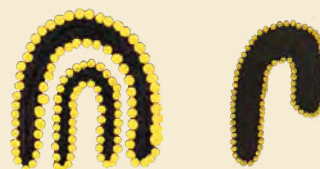

What is this COVID vaccine about?

Scientists from around the world have worked together to develop a **vaccine (the jab)** to protect people from getting sick with coronavirus (COVID-19). The Australian government has purchased this vaccine from overseas, and is making some here as well, so that there is enough for everybody in Australia to help **keep us safe**.

When can I get the jab?

The COVID-19 vaccine is **free for everyone**, but some people need to be protected first.

Elders over 55, mob with disability and bad health can get the vaccine now. The Government calls this **phase 1b**.

The **rest of the mob** can get the vaccine next. The Government calls this **phase 2a**.

If you miss out on your turn, **you can get the vaccine at any time**.

How do I get the jab?

You can make a time to get the vaccine from your **Aboriginal and Torres Strait Islander Health Centre** or **your Doctor**.

Know your rights

You have the right to find out more information about the vaccine before you decide to get it.
